MAKING SCIENCE GROUP, SA (the "**Company**" or "**Making Science**") by virtue of the provisions of article 17 of Regulation (EU) No. 596/2014 on market abuse and article 228 of the revised text of the Law on Stock Market, approved by Royal Legislative Decree 4/2015, of October 23, and related provisions, as well as Circular 3/2020 of the BME Growth segment of BME MTF Equity, discloses the following:

PRIVILEGED INFORMATION

Making Science yesterday acquired 100% of the shares of the Sweeft Digital Group of Companies, a specialist in ecommerce, payment platforms and apps. Tbilisi, Georgia-based Sweeft Digital employs more than 200 software engineers and data scientists and is Georgia's leading digital development company.

It is estimated that Sweeft Digital will contribute 1 million euros of pro forma EBITDA to Making Science in 2021 (that is, taking into account its activity from January to December). With this purchase, more than 50% of Making Science's EBITDA in 2021 is expected to come from outside Spain.

Sweeft Digital is a development consultancy *full stack* and the construction of technological, creative and personalized solutions with clients in the UK, Italy, Georgia and Germany. It also has a proprietary Digital Wallet (Sweeft Wallet), which was launched in Georgia in 2017. With a dedicated team of professionals, it provides end-to-end mobile solutions including iOS, Android, *frontend*, *backend* and integration with third parties. Likewise, he develops any type of web application, and has extensive experience in Fintech and electronic commerce, among other areas.

This purchase strengthens the capabilities of Making Science in key areas such as the development of electronic commerce and digital payments, which have had a very important growth in demand during the pandemic and in which Making Science wants to be a leading player.

The acquisition is part of the Company's international expansion strategy, which is already present in Spain, Portugal, Mexico, Colombia, the United States, Ireland, France, Italy and the United Kingdom. In this sense, Making Science accelerated its growth plan in 2020 with its incorporation to BME Growth in Spain and Euronext Growth Paris in France to increase its financing capacity and boost its international growth.

The purchase price has been set at 1.8 million USD of initial payment, 100,000 shares of Making Science and a variable additional payment (*earnout*) based on the EBITDA generated until the year 2025.

We remain at your disposal for any further clarification.

Sincerely,

CEO of Making Science Group, SA
